Hopefully, having read some of the real nappy information, you may now like to see real nappies for yourself! Fortunately local large retailers are just beginning to stock a wider variety of real nappies but not all of the different designs. Your local real nappy adviser or nappy laundry adviser can show you the latest designs that are available, how to use the nappies, costs involved and suggest what system would work for your family. There is also the option to 'borrow' on a free loan, a **Real Nappy Library Kit** for a number of weeks to see if real nappies will work in your family setting. Trying them out first is the best way to see them in action! There is no obligation to buy or to agree to a laundry service, so feel free to shop around!

**Below are all the local contacts you need to get you started and a checklist of the service they offer. Please note that the details were correct at the time of going to print and new services are being added all the time. Call the Initiative for up-to-the-minute information or view our website.**

## Internet Real Nappy Suppliers

As you can see this is a growing industry for real nappy sales. Bear in mind that you can't try out the nappies for free via internet providers. Suppliers generally charge you for a TRIAL kit of nappies (following email advice) that are non-returnable or postage and packaging is charged (both ways if items are returned). It can be difficult to guess what style and material will best suit your child from a picture. By viewing or trying out library loan kits located around the county, will enable you to see, feel and try out the nappies before you shop. Then if you like to shop around or hunt for the bargains you will know what you are looking for. Local real nappy suppliers do not add postage and packaging to your purchase if you collect/return items direct from them.

### **Think carefully about buying a 'complete' Birth to Potty set of real nappies before or just after baby is born.**

Consider this option again at the 8-12 week stage. Babies come in all shapes and sizes so buying a complete set of 1 type of nappy prior to the birth, may be a disadvantage if your child's shape doesn't fit the nappy as they grow. Cost savings may disappear if you decide in the future not to continue with their use, have to buy different/additional real nappies or return to disposables. Most real nappy parents have a mixture of the different types of real nappies to adapt to their situation. See Fact File 4 Newborn Nappies for more information about the types of real nappies that suit the newborn child or consider borrowing a New Born Kit Hire\*\* for the 1<sup>st</sup> 4-6 weeks (See Little Green Earthlets above).
